Address

Bahir Dar, Ethiopia

Education

Bachelor of Degree in software Engineering

Bahir Dar University

Skills

- Python
- TensorFlow
- NumPy
- Pandas
- Keras
- Scikit_learn

Languages

Python

JavaScript

HTML

CSS

Java

Helen Eshetu

Software Engineering Student

I am Helen Eshetu, a highly motivated Software Engineer with a strong foundation in Python libraries, machine learning and deep learning fundamentals. Skilled in utilizing various neural network architectures, Committed to delivering efficient and scalable solutions.

Experience

Front-End Web Development

Developed and maintained front-end web applications using HTML, CSS, and JavaScript.

Machine Learning and Deep Learning Fundamentals

machine learning algorithms and implemented them in Python. Developed and trained neural network models using CNN, ANN, RNN, and NLP techniques.

Applied transfer learning to leverage pre-trained models for specific tasks.

Mobile Application Development

Developed mobile applications using Flutter framework for class projects.
